Summary

Computer Science student focused on turning unclear, real-world problems into reliable, usable software. Comfortable owning a project end-to-end, from understanding user needs and designing the solution, to writing the code, testing it, and documenting it clearly. Alongside technical work, I lead content strategy for a 100+ member developer community, which has sharpened how I communicate technical ideas to different audiences and collaborate across teams.

Education

Bachelor of Technology in CSE – Banasthali Vidyapith	2024 – 2028 Jaipur, India
CGPA: 8.17/10.00	
Class XII (Senior Secondary) – Campion Public School	2021 – 2023 Narmadapuram, MP
Percentage: 81%	
Class X (Secondary) – Servite Convent School	2020 – 2021 Narmadapuram, MP
Percentage: 93.2%	

Projects

EMEA Fund Strategy Classifier	2026
<i>Hybrid LLM + rule-based classification pipeline</i>	<i>GitHub</i>
Built an auditable document pipeline that combines an LLM with deterministic rules to extract 26 key data points from fund prospectuses. Used this pipeline to classify funds into 21 investment strategies and three risk tiers, with every decision traceable back to its source rules. Validated the system with an imbalance-aware evaluation suite, reaching 99% / 96% / 96% accuracy across category, notch, and strategy layers.	
DraftBox	2025
<i>AI-assisted content adaptation tool</i>	<i>GitHub</i>
- Designed and built a tool that adapts one core draft into platform-tailored posts (LinkedIn, Instagram, etc). - Focused on usability and reliability: tuned pacing, hooks, and layout per platform to cut the friction of manual cross-posting.	

Experience

Content Head	07/2026 – Present
<i>Microsoft Student Chapter, Banasthali Vidyapith</i>	<i>Rajasthan, India</i>
- Own end-to-end content strategy and operations for a 100+ member student developer community, translating technical concepts for a wide range of audiences. - Partner directly with chapter leads and external sponsors and event partners to align messaging, timelines, and delivery – cross-functional communication that keeps a program on track.	
Executive Member	09/2025 – 07/2026
<i>Microsoft Student Chapter, Banasthali Vidyapith</i>	<i>Jaipur, India</i>
Wrote technical articles, announcements, and workshop collateral supporting official university technical sessions; collaborated across creative and technical teams to grow engagement.	

Technical Skills

- Languages:** C++, HTML, CSS
- Core CS:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Design
- Data & Tools:** Python, Pandas, scikit-learn, Git/GitHub
- AI & LLM Tooling:** Prompt Engineering, Structured LLM Outputs.
- Communication & Leadership:** Technical Writing & Documentation, Community Management, Collaboration.

Achievements

- Vidyarthi Vigyan Manthan – National Exposure Delegate (MPCST):** Selected among 267,000+ national participants for a fully funded national science exposure trip.
- Inter-College Ideathon – 2nd Runner-Up (2025):** Top 3 of 100+ teams; proposing smart roommate-matching platform with algorithmic filtering.
- Harvard Project for Asian and International Relations (HPAIR) 2026:** Selected Delegate, Asia Virtual Conference through a competitive application process.

Volunteering

Anbhigya – Founder	2021 – Present <i>Documentation Link</i>
- Founded an educational initiative supporting high-school students in under-resourced small towns. - Curated career exposure sessions and designed a structured public Notion hub for post-meeting documentation.	
Volunteer – Youth Empowerment Foundation (YEF): Supported fundraising campaigns and on-ground logistics for grassroots initiatives.
